Whale Watching

(Seasonal)

An epic excursion, witnessing the awe-inspiring enormity and grace of 40ft (12m) humpback whales up-close, in their natural environment. The majestic creatures can be encountered from December to March during their winter migration, when they come to Vallarta for mating and calving.

Humpbacks, renowned for their agility, engage in breaching, lob-tailing and tail-slapping. Guests board an inflatable speed boat along with an expert marine guide to fully appreciate this fascinating species. We are the only company to use a light aircraft to track the whales, so you have the best opportunity to see the humpbacks at play.
